

Qualitative 4: Geometric Query, E0 vs 3D-Position Prediction

E0 RGB candidate canvases

3D-position prompt geometry

Geometric query
"the trash can is the second closest to the door out of the group of cans . the trash can has a plastic bag over it ."

E0 RGB route

- selected: id1
- IoU: 0.001
- Acc@0.25=False

3D-position route

- selected: D / id14
- IoU: 0.926
- Acc@0.25=True

3D-position evidence

Query: the trash can is the second closest to the door out of the group of cans . the trash can has a plastic bag over it .

2.2 Anchor object: door center=(-1.60, 4.29, 1.20)

Candidates:

- [A] trash can: anchor_delta=(+1.57, +0.48, -0.21) dist=1.66m size=(0.58×0.35×0.76)m vol=0.156m³
- [B] trash can: anchor_delta=(+2.60, -0.33, -0.24) dist=2.63m size=(0.44×0.45×0.76)m vol=0.151m³
- [C] trash can: anchor_delta=(+2.63, +0.34, -0.16) dist=2.66m size=(0.40×0.43×0.79)m vol=0.134m³
- [D] trash can:
